AIR PURIFICATION AND DUCT CLEANING

DUCT CLEANING • FILTER UPGRADES
WHOLE-HOME AIR PURIFIERS

Duct Cleaning Service

We use high-efficiency vacuums to extract dust and debris from supply and return ducts, registers, and diffusers. Our technicians evaluate your ductwork for efficiency, code compliance, and potential issues, providing a detailed report with recommendations for optimal performance.

Why clean your ducts?

Your HVAC system circulates air through every room in your home. Over time, dust, allergens, and contaminants accumulate in the ductwork, affecting both air quality and system performance. Our thorough cleaning options remove these pollutants, promoting a healthier and more comfortable living environment.

BEFORE

AFTER

Air Filter Upgrades

Enhance your home's air purification with our advanced filtration:

- Honeywell F100 Media Air Cleaner: MERV 11-rated filter with 4x the lifespan of standard filters; requires replacement every 6–12 months.
- American Standard AccuClean Whole-Home Air Cleaner: High-performance filtration for comprehensive air purification.

Ready to Breathe Cleaner Air?

Call us today at **336.273.8663** to schedule your duct cleaning and air purification service. Let Berico help you bring the power of nature indoors.

Eight Reasons to Improve Indoor Air Quality

1. Creates a Cleaner Living Environment
2. Reduces Allergens
3. Reduces Airborne Illnesses
4. Improves Air Flow Efficiency
5. Removes Unpleasant Smells and Odors
6. Increases Mental Performance
7. Reduces Fatigue and Headaches
8. Less Sick Days

Case Study:

An elementary school district in Illinois upgraded to MERV-13 filters and installed UV-C purification in classrooms. They recorded a 35% drop in nurse visits for respiratory issues and a 19% improvement in attendance within one school year. (Case study: ASHRAE Journal, 2021)

Children breathe 4x more air per pound of body weight than adults (EPA, 2023).

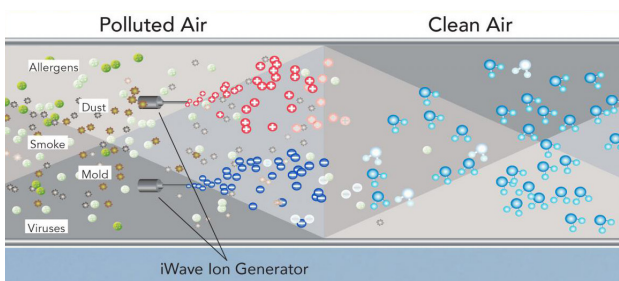

The EPA has ranked indoor air pollution among the top five environmental dangers.

Enjoy clean, healthy air by Berico.

Our professional duct cleaning and air purification services are designed to enhance indoor air quality, reduce health risks, and improve HVAC efficiency—so you and your family can breathe easy every day.

Air Purification: iWave, Phenomenal Air

Both iWave and Phenomenal Aire install in any duct HVAC system. When air passes over them, ions produced by the device reduce pathogens, allergens, particles, smoke and odors in the air.

These devices use patented ionization to produce positive and negative ions that break down pollutants into harmless compounds like oxygen and water vapor.

Protect your home and family

Our air purification systems ensure that your air ducts, and practically every surface you touch is cleaner and safer for your family. It's as simple as turning on your fan, furnace, or air conditioning system.
